#### PROVIDING FOR LEGISLATIVE MANUALS FOR PRESS MEN.

The Speaker laid before the House, for consideration at this time, the following resolution:

S. C. R. No. 4, Providing for Legislative Manuals for newspaper representatives.

Whereas, It has been the custom of past Legislatures to provide representatives of newspapers and news services in attendance upon sessions with bound copies of the Legislative Manual with their names embossed upon the covers; and

Whereas, House concurrent resolution No. 11, passed during the Regular Session of the Forty-first Legislature, omitted this provision, but only set forth that the correspondents should be given paper back copies of the Manual; and

Whereas, The newspaper and news service representatives are entitled to this small consideration from the members of the Legislature, in keeping with an old custom; therefore be it

Resolved, That each and every accredited representative of a newspaper or news service who was in attendance upon the Regular Session of the Forty-first Legislature be supplied with a copy of the Legislative Manual of the Forty-first Legislature, bound in flexible mo-

rocco, with the correspondent's name embossed upon the cover, and that the expense of supplying these manuals be paid from the contingent fund.

The resolution was read second time and was adopted.

#### PROVIDING FOR PRINTING TAX COMMISSION REPORT.

Mr. Petsch offered the following resolution:

Whereas, At the Regular Session of the Fortieth Legislature, a tax commission was appointed and assigned with the duty of studying the tax system of the State of Texas and the inequalities existing thereunder; and

Whereas, Said commission made a careful and diligent investigation of the conditions in Texas and its system of taxation, and has compiled information which is of highest value to the members of the Legislature; and,

Whereas, Said information can only become available to the members of the Legislature and to the citizenship of this State by having said report printed; and

Whereas, Under the Constitution all measures pertaining to the raising of revenue must originate with the House of Representatives; therefore be it

Resolved, That the report of said tax commission be printed as an appendix to the House Journal, and that the Chief Clerk of the House be instructed to secure such printing, and it is hereby so ordered.

Signed—Petsch, Hubbard, Purl.

The resolution was read second time and was adopted.

#### COMMUNICATION FROM HON. JOHN N. GARNER.

The Speaker laid before the House and had read the following communication:

Washington, D. C., May 4, 1929.

Hon. W. R. Montgomery, House of Representatives, Austin, Texas.

Dear Monty: You are familiar with the appropriation that I succeeded in securing a year ago for the purpose of financing an expedition to Mesopotamia to study rain resistant dates and secure if possible a quantity of offshoots of promising varieties to be imported for planting in the Lower Rio Grande Valley for experimental purposes to see if a variety, having commercial possibilities, might not be developed which can be grown under our conditions of climate and rainfall.

I am informed that this expedition was sent last summer and that it has been successful in securing some promising material. The Department advises me that a shipment of some 1350 valuable date offshoots has just arrived from Mesopotamia and are being treated at the government quarantine station here for possible diseases and pests. As soon as they have been thoroughly disinfected, I am informed that the greater portion are to be shipped directly to Weslaco to be planted in the experiment station there for study.

I am also informed that it is highly desirable that an expert especially qualified to handle and study be assigned to take charge of the work of trying to adapt date culture to the Lower Rio Grande Valley, and also to a much larger region of South Texas where I am informed that dates may be grown if the right varieties and the correct method of treating them may be developed. The fact that this large shipment of offshoots is now ready to be planted in Texas for testing, brings up the matter of whether we are going to do this work right, or only partially. While much can be accomplished with the material now available a great deal of time can be saved by having a well qualified man assigned to study the particular problem of adapting date culture to Texas. I am informed that if the Legislature of Texas will provide a fund of \$5000 annually, that it will provide the funds to employ a high grade man and pay his expenses to work on dates at Weslaco.

The Department informs me that the prospects of growing dates in Texas are very promising if suitable varieties can be found that can be established there. I do not need to say to you that if such an industry can be established in our State, it will be the means of bringing a very desirable development. This country annually imports around 80,000,000 pounds of dates for which we pay foreign growers many millions of dollars. If we can produce dates in our State much of this money would flow to our producers.

I am told by Dr. W. T. Swingle, of the Bureau of Plant Industry, that there are twenty counties in South Texas that are sufficiently free from frost to produce dates, but that special varieties that will not be injured by rains must be secured.

Congress has made liberal provision for providing the material for making the test. If Texas desires to aid in this work to the extent indicated, it

will doubtless result in saving much time in working this problem out.

I am merely writing you this letter for the purpose of passing on to you such information as I have, knowing that you are greatly interested in this problem and thinking that it might assist you in securing such action as you may contemplate asking for.

If I can be of any assistance to you, will you please command me.

With best personal wishes, I am,

Truly your friend,

(Signed) JNO. N. GARNER.
